

The role of Government	Condition Variables	Measurement	Abbreviation	Y			~Y
				Solution 1a	Solution 1b	Solution 2	Solution 3
risk-taker and Investor	R&D Investment	R&D Expenditure Intensity	X1	●	●	●	⊗
risk-taker and Investor	Government Guidance Fund Support	Investment Density of Government Guidance Funds	X2			●	
risk-taker and Investor	Government Innovation Subsidies	“Government Subsidy Details” under “Non-operating Income” in the Notes to the Financial Statements of Listed Companies’ Annual Reports	X3	●		●	⊗
market creator and shaper	Incubation Fund Support	Total Incubator Fund	X4	●	●	●	⊗
market creator and shaper	Makerspace Services	Amount of Investment Received by Entrepreneurial Groups and Startup Companies	X5	●	●	●	⊗
market creator and shaper	Government Innovation Procurement	Log of the Number of Innovation Procurement Orders by Government Agencies	X6		●	⊗	
innovation ecosystems builder	Cultivation of S&T Personnel	Full-time Equivalent (FTE) of R&D Personnel	X7	●	●	●	⊗
innovation ecosystems builder	Cultivation of Innovative Firms	Number of High-tech Enterprises	X8	●	●	●	⊗
innovation ecosystems builder	Intellectual Property Protection	Ratio of Transaction Value in Technical Markets to GDP	X9	●	●		⊗
consistency score (inclS) of the solution terms				0.997	0.987	0.994	0.984
Proportional Reduction in Inconsistency (PRI) of the solution terms				0.992	0.967	0.974	0.969
raw coverage score (covS) of the solution terms				0.494	0.522	0.353	0.610
unique coverage score (covU) of the solution terms				0.022	0.096	0.030	—
between consistency (BECONS) adjusted distance				0.003	0.014	0.007	0.019
within consistency (WICONS) adjusted distance				0.023	0.051	0.025	0.032
consistency score (inclS) of overall solution					0.985		0.984
Proportional Reduction in Inconsistency (PRI) of overall solution					0.965		0.969
raw coverage score (covS) score of overall solution					0.620		0.610
